Scalable Video Surevillance Integration Opportunity in Pacific Northwest

EGAN SECURITY GROUP

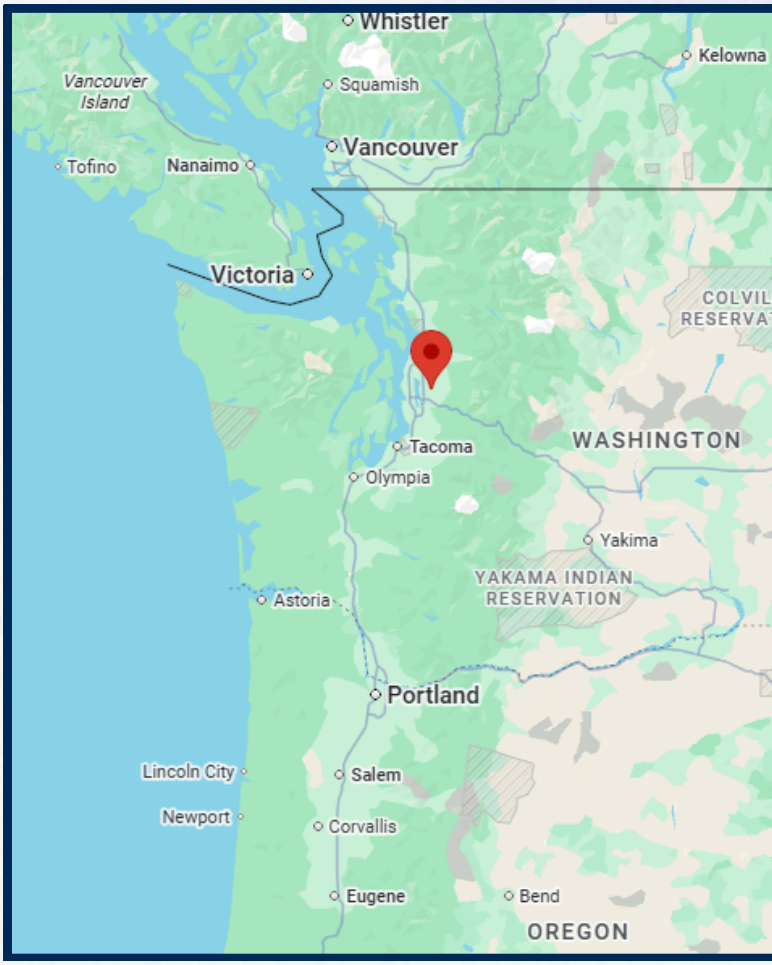

Project Seahawks

ABOUT THE BUSINESS

This opportunity represents the acquisition of a well-established video surveillance integrator serving a major Pacific Northwest metropolitan market. The company specializes in the design, installation, integration, and ongoing support of sophisticated video surveillance systems, with complementary capabilities in access control, intrusion detection, fire alarm, and perimeter security.

Serving commercial, governmental, institutional, and high-end residential customers, the company has particular expertise in complex, mission-critical environments requiring customized video solutions. A meaningful portion of revenue is derived from recurring monitoring and managed services, creating stability and visibility for future cash flows.

With decades of operating history and a strong regional reputation, the platform benefits from long-tenured customer relationships, in-house technical expertise, and consistent project backlog. The company is well positioned for continued growth through expansion of higher-margin services, operational scaling, and strategic investment under new ownership.

FACTS

- Over 50 years of continuous operations with a strong regional reputation
- Strong public-sector experience, in-house technical capabilities, long-tenured customer relationships
- Generates approximately $73,000 stable recurring monthly revenue from monitoring
- Ownership willing to support an orderly transition
