Nationwide Commercial AV, Security & Technology Subcontracting Business

EGAN SECURITY GROUP

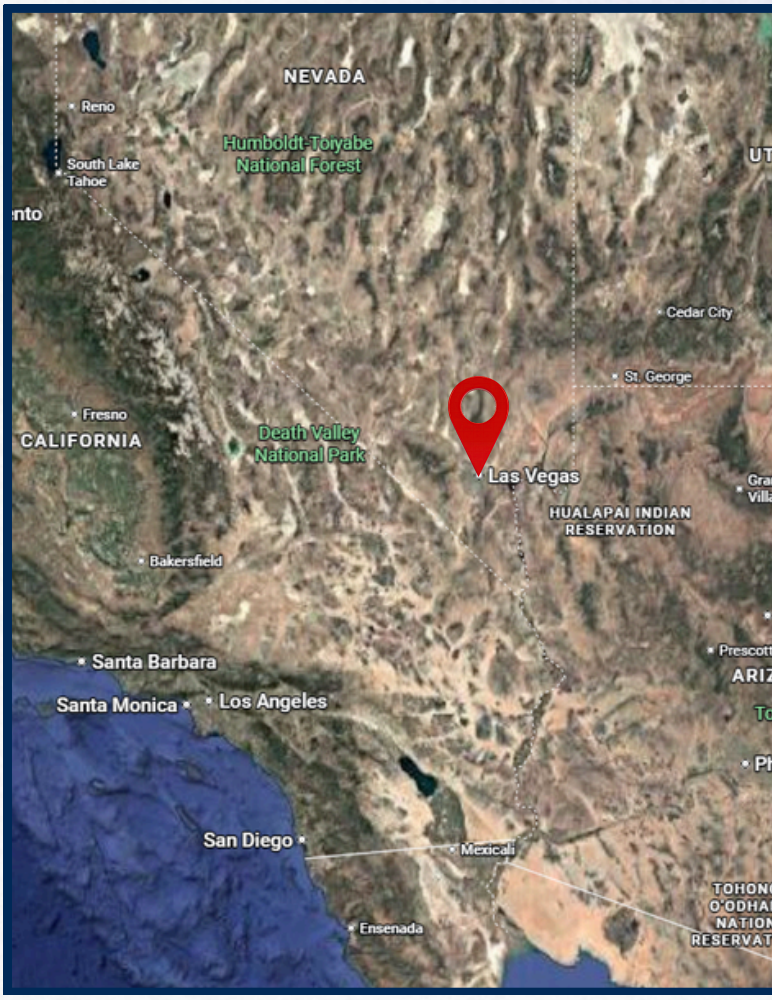

Project Aces

ABOUT THE BUSINESS

This Company is an established provider of commercial audiovisual, security, and low-voltage technology installation services, specializing in subcontracted field services for national and regional integrators. Operating under a lean, scalable business model, the Company provides experienced technicians to support a broad range of services, including AV system installation, structured cabling, video surveillance, access control infrastructure, system commissioning, and troubleshooting projects across the United States.

With more than 15 years of industry experience, the Company has developed long-standing relationships with leading integrators, contractors, and technology providers, serving as a trusted subcontracting partner for projects of varying sizes and complexities. Its diverse project experience spans the commercial, retail, healthcare, corporate, institutional, and entertainment markets.

The Company benefits from a flexible workforce, minimal fixed overhead, and established industry relationships that generate repeat business and ongoing project opportunities. Its nationwide service capabilities and experience supporting complex installations present an attractive acquisition opportunity for a strategic buyer seeking to expand its technical resources, customer relationships, geographic reach, and subcontracted service offerings.

KEY HIGHLIGHTS

- 15+ years of operating history serving established partnerships nationwide
- Subcontract-Focused Business Model: Trusted partner for leading integrators
- Lean, scalable workforce allowing flexibility to accommodate project demands
- Strong Project Backlog: Over $575,000 in contracted backlog across commercial, healthcare, retail, aerospace, and institutional projects
